

Sales – Survey & Scanning

Precision Midwest is a leading distributor of Trimble construction and land surveying products in the Midwest; including Spectra Precision Laser, Trimble GPS, and Trimble Robotic Stations.

We are looking for highly motivated sales specialists to promote and sell Trimble Survey and Trimble Scanning products in Illinois. This position requires a high level of product, application, and sales knowledge to be successful. You will be working with surveyors, engineers, trade specific contractors and general contractors. This is an excellent opportunity for someone who enjoys working outdoors in a causal environment and utilizing leading-edge technology, Building Information Modeling (BIM) and Robotic Total Stations.

Please email resume to pmw.employment@gmail.com.
