

## **Precision Midwest LM80-Wireless Trade-in Program**

Precision Midwest is pleased to announce a special limited time trade-in offer for customers who purchase a new Trimble® LM80-Wireless controller. Now customers can purchase the best hardware and software for building construction layout and receive \$375 credit by trading in an old controller for a stand-alone LM80-Wireless or LM80R-SPS robotic bundle kit.

The new LM80-Wireless comes loaded with Trimble LM80 Layout Manager v4.20 software and includes WLAN and Bluetooth capabilities. The LM80 also communicates with other manufacturer instruments. The program encourages customers to trade in competitive controllers and older Trimble LM80 controllers. Additionally, the trade-in offers the following benefits:
